Listen to mailbox	▶ ▶ Phone ▶ Keypad (see A) ▶ Press and hold button 1 (see B).	–
Accept/reject a call	▶ Touch Accept or Reject .	–
End a call	▶ Touch in the footer or Phone menu. – or – Press the button on the multi-function steering wheel.	–

Various use options are available depending on model, country and equipment. The features described here are therefore not available in all models, countries and equipment versions.

WARNING

Risk of accident due to using mobile phone

Using mobile phones while driving may distract from the traffic situation. You may lose control of the

vehicle.

- ▶ Only make or receive calls using hands-free equipment.

WARNING

Danger of injury

Mobile phones must be switched off in certain danger areas, e.g. near petrol stations, fuel depots, chemical plants or during blasting work. They may

interfere with technical equipment.

- ▶ Always comply with instructions as well as legal requirements and local restrictions.

Connecting a mobile phone via Bluetooth®

Connecting a new mobile phone

- ✓ Bluetooth® function of the mobile phone is activated and is visible to other devices.
- ✓ Bluetooth® function of the PCM activated.

Warning and information messages

If a warning message appears, refer to the corresponding chapters in this manual. Warning messages only appear if all measurement prerequisites are met – all fluid levels should therefore be checked regularly. The message will disappear either after a certain time has elapsed or after it has been acknowledged.

If a warning light appears, refer to the corresponding chapters in this manual. Please refer to chapter "Instrument cluster" on page 125.

Important messages are stored under  in the central display of the main menu. Depending on the message, its display can vary and be used, for example, in connection with graphics, symbols or buttons to acknowledge or confirm a prompt. Some messages can include other functions such as the display of instructions in the central display or the search for a nearby Porsche partner.

► Please refer to chapter "Notifications" on page 173.

General message structure

The following table shows the various types of message and their meaning.

colour	Message structure	Example	Urgency	Meaning and action required
Red	Cause : e.g. component failure/ Component defective/ Component faulty	Drive system fault Electric drive overheated	High risk of damage	Stop the vehicle immediately in a suitable place. <ul style="list-style-type: none"> ► Do not keep driving. Stop safely in a suitable place and switch off the vehicle. ► Call roadside assistance or have your vehicle towed. <ul style="list-style-type: none"> ► Please refer to chapter "Towing" on page 245. ► Have the fault remedied immediately at a qualified specialist workshop.¹
	Step: Park the vehicle safely	Park the vehicle safely		
	if necessary, further step	Let the electric drive cool down		
Yellow	Cause : e.g. component failure/ Component defective/ Component faulty/ Component overloaded/ Component limited/ Component not available	Chassis fault	Increased risk of damage	Limited and adapted driving permitted. <ul style="list-style-type: none"> ► Adapt your driving style to the situation. ► Reduce load. ► If the fault occurs frequently or continuously, have it remedied at a qualified specialist workshop.¹
	Step and, if necessary, further step: e.g. service necessary/	Consult a workshop		

1. Porsche recommends a Porsche partner as they have trained workshop personnel and the necessary parts and tools.

A	colour	Message structure	Example	Urgency	Meaning and action required
B		Consult a workshop/ Check component/ (adapted or restricted) driving possible/ Adapt or reduce speed/ Reduce load	adapted driving permitted		
C					
D					
E					
F	White	Cause : e.g. component fault/ Component limited/ Component not (no longer) available	Camera system not available	Low risk of damage	Adapted driving permitted. <ul style="list-style-type: none"> ▶ Temporary condition. Normal condition is restored automatically while driving or after the vehicle has been restarted. ▶ Adapt your driving style to the situation. ▶ If the fault occurs frequently or continuously, have it remedied at a qualified specialist workshop.²
